EDUCATION

Degree	Institute/Board	CGPA/Percentage	Year
Bachelor of Technology (CSE)	LNJPIT (Bihar Engineering University), Chapra	7.00	2022-2026
Senior Secondary	Central Board of Secondary Education	85.2%	2021
Secondary	Central Board of Secondary Education	83.8%	2019

EXPERIENCE

- Invigo Infotech

Dec 2025 – Jan 2026

Web Development Intern

Remote

– Developed responsive web applications using HTML5, CSS3, JavaScript, Flexbox, and CSS Grid.

– Built interactive user interfaces with DOM manipulation, form validation, and dynamic content rendering.

– Utilized Git/GitHub, VS Code, Browser Developer Tools, and npm for development, debugging, and version control.

– Applied responsive design principles and cross-browser compatibility techniques to enhance user experience across devices.
- Polytropic Services

May 2025 – Jun 2025

Frontend Developer Intern

Remote

– Developed responsive frontend applications using HTML5, CSS3, Bootstrap 5, and JavaScript (ES6).

– Built interactive dashboards with DOM manipulation, form validation, localStorage, and event-driven architecture.

– Applied Git/GitHub workflows, branching strategies, pull requests, and collaborative version control in real-world projects.

– Implemented reusable UI components and optimized frontend performance for improved responsiveness and maintainability.

PROJECTS

- Explainable AI Intrusion Detection System

Jan 2025 – Present

Technologies: Python, Flask, React.js, XGBoost, Random Forest, SHAP, SQLite, REST APIs

– Developed a full-stack Explainable AI-based Intrusion Detection System capable of detecting cyberattacks including DDoS, Port Scan, SQL Injection, Botnet, FTP Patator, and SSH Patator.

– Implemented Machine Learning models using XGBoost and Random Forest for network intrusion detection and threat classification.

– Integrated Explainable Artificial Intelligence (XAI) using SHAP and designed a React dashboard for real-time monitoring, attack visualization, and threat analytics.

– Evaluated model performance using Accuracy, Precision, Recall, F1-Score, and ROC-AUC metrics to improve threat detection reliability and reduce false positives.
- Placement Management System

Jun 2026 – Present

Technologies: React.js, Node.js, Express.js, MongoDB, JavaScript, REST APIs

– Developed a full-stack Placement Management System to streamline student registration, company onboarding, job application tracking, and campus recruitment workflows.

– Implemented role-based authentication and authorization for Students, Placement Coordinators, and Administrators, ensuring secure access control and efficient data management.

– Built RESTful APIs and integrated MongoDB database operations for CRUD functionality, application tracking, placement record maintenance, and reporting.

– Designed responsive dashboards with advanced search, filtering, recruitment drive management, placement statistics visualization, and student profile management.

TECHNICAL SKILLS

- Programming Languages: C, c++, Python, JavaScript
- Web Development: React.js, HTML5, CSS3, Bootstrap, Flask, REST APIs
- Database: SQLite
- Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems
- ML & Tools: Scikit-learn, XGBoost, Random Forest, SHAP, Pandas, NumPy, Git, GitHub, VS Code, Postman

POSITIONS OF RESPONSIBILITY

- Training & Placement Coordinator, Training & Placement Cell, LNJPIT Chapra

Jun 2023 – Present
- Event Organiser, Aagaaz & UMANG (Inter-College Annual Sports Fest)

2023 – 2025

ACHIEVEMENTS

- Blind Coding Hackathon Runner-Up (2 Times) – Secured 2nd position in college-level Blind Coding Hackathon competitions.
- Golden Boot Award – Awarded as the highest goal scorer in the zonal football league.
